# PREFACE

This volume, completing the thirty-seventh year of the Industrial Arts Index, cumulates the monthly issues published from December 1948 thru November 1949. The list of periodicals remains practically unchanged from the list of 1948, to which a considerable addition was made. The various changes in titles of periodicals are noted as they occur in the announcement pages of the current numbers of the Index and in the List of Periodicals Indexed. The only changes that need notice here are the merging of *Textile Colorist* with *American Dyestuff Reporter* and the discontinuance of Index.

The fact that a large proportion of the periodicals indexed are growing in size may indicate that these periodicals have been wisely chosen by Index subscribers.

The Magazine Notes, appearing in the current monthly issues, have again been cumulated for the annual volume and as many as possible checked for later information.
